A copy of Section 5041 and Section 219(f)(48), as amended, is enclosed .

The procedures and guidance contained in paragraph 6 and Appendix D of EC 1165-2-208 will be used in preparation of and review of the document supporting the integral determination. The integral determination shall be provided to the SPD-RIT for coordination and processing to obtain approval from the ASA(CW). Upon ASA(CW) approval of the integral determination, provided that all or a portion of the work is determined to be integral, the District shall prepare an amendment to the PPA and include the appropriate language regarding determining the value of and affording credit for work accomplished by the non-Federal sponsor prior to execution of the PPA. This amendment to the PPA will require approval by ASA(CW). Close coordination with the Vertical Team should be maintained in developing this non-standard agreement.
