PLAN FORMULATION

Welcome

The Plan Formulation Subject Matter Expertise website records, organizes, and reports the knowledge, skills, and abilities of Corps plan formulators.

Search plan formulators by division, district, or categories such as level of experience, business expertise or training. You can then filter your results by Division or District, or choose a new filter. You can also project years Corps experience up to 25 years in the future.

Do you need a chart for a report or presentation? Run a report and display a chart with a data table. You can also run reports filtered by Division or Business.

Take a look at the [Help](#) section for tips on how to use these new features, and also for information about the parameters used in each report.

Manage plan formulator information at the individual or division level.
